INTERNATIONAL
INDUSTRIAL VEHICLE TECHNOLOGY

Interview

Anders Larsson

VP Technology, Volvo CE

Ergonomics

Cold comfort for operators

Going to extremes

Cat & Finning's Coldest Journey vs the 1939 Snow Cruiser

Case studies

- > Øveraasen TV1000 snow blower
- > Prinoth Leitwolf snow groomer

Design Challenge

- > Hot vehicles for cold climates

Electric drives

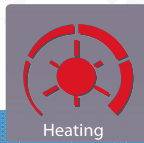

- > Not just for warm applications

Engines & emissions

- > Max power at minimum temperatures

There's no business like **SNOW** business

Winter Special: Ensuring off-highway vehicles don't catch their death of cold

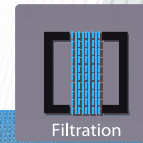

Heating

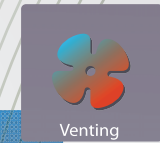

Air Conditioning

Pressurisation

Filtration

Venting

AIR CONDITIONING

manufacturing cooling kit

Custom design

Design and manufacture of HVAC systems specifically adapted to the vehicle, to its operational requirements and to your specification.

Quantities from 50 up to several thousand units a year

HVAC
